

*Thank you for choosing CleanWorks.*

## These 10 TIPS

*might be helpful to consider before we arrive:*

- 1 If we are moving bedroom furniture, please remove items that are stored under your beds. (You can just set them on top of the bed if you want).
- 2 Please remove any “nick-nacks” or especially high-value items from the areas to be cleaned, or if not practical, let our Technician know about these items so we can take special care.
- 3 Keep in mind that we can’t move electronic equipment (computer desks and entertainment centers).
- 4 We can’t move china cabinets unless they are empty before we arrive.
- 5 Since your door will need to be slightly open during the cleaning process, make sure pets are secured.
- 6 If you need to leave while we are cleaning, remember to park your vehicle where you aren’t blocked in.
- 7 If we are cleaning only your exposed carpet, you will get more bang for your buck by moving items off the carpet BEFORE we arrive – we will clean whatever carpet is exposed.
- 8 Please alert our Technician if you have any specific concerns or problem areas that may need additional attention – pet stains, spills, especially soiled areas, etc.
- 9 After we leave, don’t put rugs and other items back on the cleaned areas until they are completely dry. Ask our Technician how long that will be.
- 10 If you ask, our Technicians will provide shoe covers to use while the cleaned area is damp.

### ***In case you didn’t know...***

Additional services, such as upholstery cleaning, are discounted while we are already in your home. Contact our office or ask our Technician for details.

We provide a **6 MONTH SPOT & SPILL WARRANTY** with application of fiber sealant. Ask about it.
